ABOUT ME

I am a young person passionate about IT. Currently, I am studying in a programming technician class. For more than a two years, I have been developing my skills in the workplace. I am keen on programming, but I also have basic knowledge about cybersecurity and computer graphics. I enjoy learning about new technologies and embracing new challenges.

EDUCATION AND TRAINING

01/09/2020 – 25/04/2025 Wrocław, Poland

Programming Technician EZN - Professional technical school in Wroclaw (Poland)

- Web Development: Procient in creating static websites using HTML, CSS, and JavaScript.
- Database Management: Experienced in working with both SQL and NoSQL databases.
- Programming Languages: Procient in using C++, Java, C#, and Python to implement algorithms.
- Desktop Application Development: Skilled in creating desktop applications using .NET.
- Advanced Web Development: Capable of creating advanced web applications using Angular, React and multiple libraries, for example Bootstrap.
- Mobile Application Development: Experienced in creating mobile applications.
- Professional Communication: Procient in using professional jargon in the workspace.
- Problem Solving: Able to apply programming skills to solve complex problems.
- Continuous Learning: Committed to staying updated with new technologies and challenges in the eld of programming

Level in EQF EQF level 5

WORK EXPERIENCE

02/11/2022 – 31/12/2024 Wrocław, Poland

PART-TIME SOFTWARE ENGINEER LAMBDA FACTOR SP. Z O.O. (IT SECTOR)

Working 4 hours, 5 days in week.
- Specializing in **Angular-based front-end development** to build responsive, scalable web applications.
- Developed statically generated websites to optimize performance, scalability, and SEO, leveraging modern tools and frameworks.
- Designed and implemented custom logic for content management system (**Strapi**) to streamline content workflows and enhance user experience.
- Managed end-to-end CMS integration, including configuring systems, connecting APIs, and ensuring seamless data flow between the CMS and applications.
- Authored comprehensive technical documentation for codebases, CMS configurations, and system architecture to support team collaboration and future maintenance.

26/06/2023 – 06/09/2023 Wrocław, Poland

ANGULAR FRONTEND DEVELOPER Vality sp. z o.o.

Working 6 hours, 4 days in week.
- Part-time role, specializing in **Angular-based frontend** development and seamless integration with a .NET backend hosted on Microsoft Azure.

- Developed responsive web interfaces using **Angular**, crafting reusable components with **Angular Material** and optimizing layouts for cross-device compatibility.
- Built a cross-platform mobile app using **Ionic/Angular**, leveraging shared Angular components/services to maintain consistency with the web app and reduce development time.
- Collaborated with backend teams to define API contracts, troubleshoot integration issues, and implement authentication/authorization flows (e.g., JWT, Azure AD).
- Enhanced performance by optimizing API calls (e.g., caching, lazy loading) and refining Angular change detection strategies for smoother user experiences.
- Utilized **Azure DevOps** for CI/CD pipelines to automate testing and deployment of Angular/Ionic applications.
- Wrote comprehensive documentation for frontend logic, API integration workflows, and mobile app deployment processes.

01/07/2024 – 31/07/2024 Coimbra, Portugal

FULLSTACK DEVELOPER INTERNSHIP Kontabile | Coimbra, Portugal Continental

Working 8 hours, 5 days in week.
- Completed a **full-time, month-long international internship** in Portugal, funded by the European Union's Erasmus+ program, focusing on WordPress development and full-stack application design.
- **Customized premade WordPress templates** by rewriting CSS/HTML structures to align with brand guidelines, improving site usability and visual consistency.
- Built and deployed a **WordPress site** from scratch, including theme configuration, plugin integration (e.g., WooCommerce, Elementor), and responsive mobile-first design.
- Designed and developed a **document management web application** using **Angular** for the frontend and **Node.js** (Express.js) for the backend, enabling secure file uploads, version control, and role-based access permissions.
- Implemented **RESTful APIs** in Node.js to handle file storage (AWS S3), user authentication, and real-time document editing synchronization.
- Authored technical documentation for both the WordPress site and document management app, including user guides for non-technical staff.

27/10/2023 – 16/12/2024 Wrocław, Poland

FREELANCE FULL-STACK DEVELOPER EXPO Sebastian Czernik (Company that sells garden equipment)

- Developed and maintained **expo-aluminium.pl** – a e-commerce site for garden equipment and LED street lamp sales – using **Gatsby/React** with SEO optimization and responsive design.
- Engineered a **serverless backend** via **AWS** (Lambda using **Node.js**, S3, DynamoDB) for scalable product inventory and order management, reducing hosting costs.
- Integrated **Stripe API** for secure payments and **Fakturownia.pl API** for automated invoice generation, streamlining checkout workflows.
- Built a secure **admin panel** for staff to manage orders, update product listings, and track invoices without technical expertise.
- Hosted the site on a **custom domain (expo-aluminium.pl)** with HTTPS encryption, leveraging AWS CloudFront for global CDN distribution and fast load times.
- Configured **Google Analytics**, **Google Ads**, and SEO tools to drive traffic and refine marketing campaigns.

LANGUAGE SKILLS

MOTHER TONGUE(S): Polish

Other language(s):

English

Listening B2
Spoken production B2
Reading B2
Spoken interaction B2
Writing B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

IDE: Eclipse, Visual Studio, Visual Studio Code, PyCharm, Dev C++ ⎮ Git (Github / Gitlab) ⎮ Linux (Terminal Commands, Bash/Shell) ⎮ Atlassian stack (Jira, Confluence, ...) ⎮ Canva, Figma

FRONTEND

Web development experience: React, Angular, JavaScript, TypeScript, HTML, CSS ⎮ Angular Ionic ⎮ BabelEdit ⎮ GatsbyJS ⎮ Bootstrap and Tailwind CSS ⎮ SASS(SCSS)

BACKEND

Aws Cloud ⎮ Node.js / Express ⎮ Java ⎮ Python Language - Basic knowledge ⎮ Docker - Basic knowledge ⎮ PHP

DATABASE

Mongodb / Mongoose ⎮ Managing Databases (MySQL) ⎮ Knowledge of SQL. ⎮ Amazon Dynamodb ⎮ Google Firebase
